

深圳国际口腔医学高新技术博览会暨学术研讨会

Shenzhen International Dental High-Tech Expo(SDHE)

Dear Dental Colleagues,

On behalf of the organizing committee, we are delighted to extend our warm invitation to you for **SDHE 2026, the 5th Shenzhen International Dental High-Tech Expo**. Positioned as China's equivalent of Cologne Dental Show, this leading high-tech dental gathering will take place under the theme "*Innovative Technology Leading New Developments in Stomatology*"

Dates: December 9 – 11, 2026

Venue: Shenzhen World Exhibition & Convention Center, China

Covering an exhibition area of 30,000 sq.m., SDHE 2026 will host more than 300 exhibitors and welcome over 20,000 global professional visitors. Six dedicated exhibition zones will be featured: international brands, high-tech innovations, domestic dental manufacturers, digital dentistry, infection-control solutions, and complete denture products.

The expo serves as a comprehensive one-stop platform spanning the full dental industry chain, showcasing cutting-edge dental equipment, innovative biomaterials and digital clinical solutions, while creating valuable opportunities for brand exposure and cross-border business partnerships.

A robust academic programme runs alongside the exhibition. Over 280 distinguished dental experts and professors from around the globe will deliver in-depth lectures covering hot-button clinical topics including implantology, orthodontics, endodontics, paediatric dentistry, periodontics, digital workflows and dental clinic administration. Attendees who join these academic sessions are eligible for National Category I Continuing Education Credits, together with official attendance certificates.

A wealth of exclusive supporting activities will also be organized during the event, including global dental summits, Belt and Road Initiative-themed forums focusing on Southeast Asian market cooperation, and one-on-one professional business matching sessions. Professional buyer delegations from over 20 countries will attend the expo, facilitating efficient cross-border trade docking, resource integration and global industry collaboration.

All dental practitioners are eligible for free admission to the exhibition. Complimentary shuttle buses will run regularly between designated partner hotels and the exhibition venue to ensure hassle-free travel. Meanwhile, professional one-on-one consulting services will be available throughout the event to address all your inquiries and demands.

As Shenzhen hosts the 2026 APEC China Year, a pivotal global diplomatic and economic event, we sincerely invite all dental professionals around the world to gather in this vibrant international metropolis. Join us at SDHE 2026 to explore frontier dental technologies, exchange advanced clinical experience, and participate in this influential global dental industry gala.

We sincerely welcome global dental peers to participate in this annual landmark event, connect with industry innovators, and share cutting-edge achievements, and jointly drive the high-quality and innovative development of the global dental industry. We are eagerly looking forward to your arrival in Shenzhen!
